There are no restrictions on the number of times a file can be downloaded. Keep your files private, or send your download links only to friends or family. You decide who you want to share your files with. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. We have no file size limit. filehosting provides an easy possibility for you to send large files to your friends. Our service is completely free for everyone. Using file, you can circumvent those limits without paying to upgrade your team chat service. If only we could, we surely would! On the other hand, using file can actually save you money.
