Maybe even better than free.

Keep your files private, or send your download links only to friends or family. Our service is completely free for everyone. Just upload the file you want toshare with your friends and we send you a download link to your file. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventuallycosting you money in data storage fees. No account or credit card is required to get started. Alternatively you can choose to share your download links on blogs,forums and social networking sites. Files can be downloaded from any computer from our high speed servers. If only we could, we surely would! On the otherhand, using file can actually save you money. The cost of that data transfer is covered by your internet service or the data plan on your phone. It is also allowedto link to the download page from websites and communities. We have no file size limit. There are no restrictions on the number of times a file can bedownloaded. You decide who you want to share your files with. Any file in any format can be uploaded and downloaded for free. You can upload any type offile (movies, music, documents, images, zip files and more). This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Whenyou use file, you avoid storing the file you're sending in your cloud storage or mail server. Simply upload your file and share the link. Why pay storage fees fora file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps.filehosting provides an easy possibility for you to send large files to your friends. Unfortunately, we can't make that part free. So try our free and simplefilehosting service now. You can give this download link to your friends by mail or instant messenger. Using file, you can circumvent those limits withoutpaying to upgrade your team chat service. You don't need any special software installed to be able to download your files. Your wallet will be none-the-lighter!Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers toyour friends device.
