Maybe even better than free.

This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Any file in any format can be uploaded and downloaded for free. We have no file size limit. Using file, you can circumvent those limits without paying to upgrade your team chat service. You decide who you want to share your files with. Just upload the file you want to share with your friends and we send you a download link to your file. You can upload any type of file (movies,music, documents, images, zip files and more). Keep your files private, or send your download links only to friends or family. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from ourservers to your friends device. Our service is completely free for everyone. So try our free and simple filehosting service now. Alternatively you can choose toshare your download links on blogs, forums and social networking sites. When you use file, you avoid storing the file you're sending in your cloud storage ormail server. Files can be downloaded from any computer from our high speed servers. No account or credit card is required to get started. The cost of that datatransfer is covered by your internet service or the data plan on your phone. There are no restrictions on the number of times a file can be downloaded. Why paystorage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferredwithin their apps. You can give this download link to your friends by mail or instant messenger. Files transferred the old-fashioned way tend to pile up and beforgotten about, eventually costing you money in data storage fees. If only we could, we surely would! On the other hand, using file can actually save youmoney. It is also allowed to link to the download page from websites and communities. Unfortunately, we can't make that part free. filehosting provides an easypossibility for you to send large files to your friends. Simply upload your file and share the link. File is free to use with no gotchas and no hidden fees. Youdon't need any special software installed to be able to download your files.
