College Scholarship/ Admission Essay

Think About Your Purpose - Not "selling yourself" or "getting in," but simply being yourself-- which usually means writing about yourself in human, rather than euphemistic, terms. For example, if your major reveals that you are a native student of French, you might write about the time a Parisian pleasantly responded in English to your request in French for directions to the Louvre.

Focus - Instead of generalizing your experience, for example saying something like, "I enjoy sports," be as specific as you can be. Write about the thrill of catching a 90 ball deep to centerfield just before it became a home run, or of a Little League career spent waiting for someone, anyone, to hit the ball to your position so that you could stop studying the game and watching the homeflies.

Use Precise And Descriptive Language - Imagine that each word you write costs you a dollar, and that you don't have unlimited funds. Instead of writing "On a rainy basis, we would spend five hours doing so the lake, where I never gave up the hope of meeting the bear that would be my Prince Charming," write "Every August, we hiked to Lake Apoposa, where I always hoped to meet my Prince Charming."

Give Your Essay Momentum - Make the parts work together and move toward a thoughtful conclusion. In an essay about the summer you spent working in a marine research laboratory, a paragraph on the umblebitus bat that took you there each day should be eliminated.

Use Correct Grammar, Spelling, and Punctuation - Don't distract your reader from what you're saying by writing it incorrectly. Misspellings, typos, and grammatical errors--such as subjects that don't agree with verbs--make the reader's task more difficult and suggest that you don't care much about the impression you make. Although nobody's perfect, strive for perfection on your application. Unfortunately, your reader may interpret your mistakes, no matter how innocent, to be signs of laziness, indifference, or even dishonesty.

Give Your Essay Momentum - Make the parts work together and move toward a thoughtful conclusion. In an essay about the summer you spent working in a marine research laboratory, a paragraph on the umblebitus bat that took you there each day should be eliminated.

Example personal statement A:

I have known in my heart since I was a little girl what I wanted to be when I grew up. It was not a stereotypical child's dream such as a doctor or an astronaut; my vision was instead something that has shaped my actions and decisions throughout my life. In the last few years I have realized that my passion for conserving the environment is a natural calling that I am destined to follow. This intuitive notion solidified while visiting my mother in Maryland a few summers ago. In my old bedroom my mother has kept framed memorabilia from my childhood. One night before I went to sleep I looked on the bed-stand to find an old article that dated back to my third year of elementary school. After rereading this article thirteen years later, with a smile, I recognized my destiny is and has always been devoting my career to the conservation and preservation of our ecosystems.

In my third grade class we attempted to introduce higher biodiversity along a creek through adding plants, which in turn attracts other organisms. Some of the older teenagers had rampaged through and stole our plants while trampling the beautiful ecosystem. I wanted to send a message to stop such destruction and the following article ended up in our town newspaper.

Although I was only in third grade, the destruction of the environment affected me more deeply than most of my fellow classmates and continues to do so today.

I wish to embark on an educational journey to beautiful Montverde, Costa Rica for the Tropical Ecology and Conservation program in the Spring of 2009. In order to take this step in my educational career, I am applying for financial aid through the John E. Bowman Travel Grants, CIEE International Study Programs Scholarships, and the Jennifer Ritzmann Scholarship for studies in Tropical Biology.

Throughout my life I have always been passionate about contributing to the conservation our earth. It became clear to me upon entering my college career that my focus should be in wildlife conservation. When I learned about this program I became ecstatic. Partaking in this unique opportunity will prepare me for my future career goals and aid to my growth as a conservationist and a young woman. While participating in this program I will apply the knowledge and resources learned during the courses that I take in Costa Rica to real world situations. I will be working in the field amongst other scientists and gaining hands on experience, which will enrich my current education and my future career. Furthermore, I will be able to contribute to the conservation of the tropical forest through my education as well as gain a better cultural understanding of the world around me.

I come from a broken home and was raised by my mother on a very low income. Thus I do not receive any financial support from my family and little from the federal government to fund my college education. Therefore my financial needs are very high. Throughout my life I have strived to achieve my goals solely on hard work and determination. For example, the last five years that I have attended school I have struggled to receive enough federal loans to pay my tuition and have been working at night while attending school in order to barely scrap by. However, I feel like this makes me a stronger person and gives me greater passion for what I am trying to achieve.

At this moment in time my situation is even more extreme than ever. Instead of working full time all summer to save money, I have been going to summer school in order to complete required courses before I depart for this program in the spring. The demands of summer school leave me no time for a part-time employment. Consequently, in order for me embark on this incredible opportunity I am extremely reliant on grants and scholarships to see this experience come to fruition.

These scholarships and grants will assist me in achieving my goals through supporting my trip expenses in Costa Rica. In essence they will allow me to receive an excellent education in an amazing country as well as apply this knowledge to help conserve our precious ecosystems that are in danger of ultimate destruction and demise. Likewise, by supporting my education these funds will enable me to spread my newfound insight and knowledge to further educate the people around me as I plan to teach in conservation programs such as the Student Observation Corps. I thank you so much for your consideration.

Re: Letter of Intent

Dear Michael Sessa,

I am pleased to submit this letter to notify PESC that **ACT, Inc** intends to work collaboratively with the higher education community to develop the following XML-based standard on National Test Score Reporting.

We propose developing and eventually submitting for approval national Test Score Reporting standard that can be used by any testing agency to fully communicate test score information. This includes test reporting information sent from the testing agency to high schools, colleges and universities, affiliated third parties such as athlete clearinghouses, employers, vitae repositories, research facilities, and local, state, and federal agencies. The intent is to create a standard that effectively communicates all pertinent testing information including cognitive as well as non-cognitive information. The intention is to create a standard that can be used for communication of initial test results as well as communicating requests for additional score reports. If possible, we hope to also engineer a means to convey survey information.

Please note the attached Business Case that covers an historical overview, justification, and a description of the planned collaboration.

I am most pleased on behalf of ACT, Inc to submit this request, and look forward to preparing a national standard that will greatly enhance the process of communicating test score report information. I am designating R. Bruce Nielsen as ACT's official representative to head this initiative on behalf of ACT.

Scholarship Application Letter

L.L.M. Environmental and Natural Resources Law and Policy

To Whom it May Concern:

My name is and I am writing in application for a scholarship to assist me throughout my time studying in the Environmental and Natural Resources LLM program at the University of Denver.

Being awarded the chance to study further in my field at the University of Denver is an incredible opportunity for me and one I intend to seize wholeheartedly without reservation. I have consistently proven throughout my previous studies and working experience than when presented with an opportunity I will strive as hard as I can to best represent myself and reward those who have granted me a chance to prove such. This is evident in my continuing relations with University of _____ and my professional mentors at _____ in Santiago, Chile. Despite financial hardship I have always done what is necessary to further my studies and work experience. This includes six months of Pro Bono work helping the poor here in Chile in family trials as well as two solid years of balancing paralegal work alongside my study commitments in order to be able to pay the very considerable fees required to study law in Chile.

Relocating from Santiago, Chile for the duration of the program represents a huge challenge and while it is one I am fully committed to, it does present considerable financial strain. I will be doing my utmost to not let this effect my participation and concentration required to gain as much as I can from the program. I am, however, also relocating with my wife and as such will have a greatly increased financial burden to overcome throughout this coming time.

As partners, my wife and I are both committed to ensuring that this will be a successful period for the both of us. My wife will be looking for work opportunities wherever she can study in Denver. Hence, leaving our home in Chile and relocating to Denver with the increasing cost of flights, accommodation and living expenses it is certain to be a challenging time.

This scholarship represents to me an opportunity to fully focus my attention on the main objective of achieving the best I can in the Environmental and Natural Resources program. I will strive to be a representative and ambassador of University of Denver throughout my future career and am very thankful to be able to attend this course. I thank you for taking the time to evaluate this application and look forward to arriving in Denver soon.

Sincerely,

Why? If you want to do itLetter of Intent (LOI) stand out from other candidates', so it is necessary to impress the panel of purse. An impressive Letter of Intention (LOI) is generally divided into the following parts: introductory paragraph, main body and closing paragraph. Race work is not a good method. Paragraph 2: Previous academic record In paragraph 2 and 3 you will find your opportunity to show how passionate you are about the course of study. I can feel so passionate about marketing. It doesn't have to be a cliché. Here is a sample letter of intent from Jasmine Tigers' scholarship, which plans to study International Marketing Management at the University of Texas. As most of you are aspiring scholarships, I'm sure most of you would be familiar with this term. Do not compose your LOI in the last minute This point cannot be super emphasised. The second paragraph: in the second subdivision of the main body, it is a good idea to talk about your passion. Final words:- This was all for this transcript to write a perfect letter of intent for the application of scholarship. Even if the Intention Letters (LOI) are usually required by recruiters, some study scholarship committees also require that they know the intentions of a particular candidate about the scholarship award. A letter of scholarship of intent to the degree Msc needs to have some important details to capture the attention of the committee. This part can be divided into 3 to 4 paragraphs.
